The board of management of the North, South and Central American Exposition have tendered an invitation to the Mississippi militia through the adjutant general to participate in the opening exercises on the 10th inst. From West Point.

Special to the Commercial Herald.

WEST POINT, MISS., Nov. 5.—The citizens committee appointed by the Rifles to ask consent of their employers to grant them leave of absence for four days to attend the Vicksburg drill on the 12th, made a final report last night. Some of the merchants unhesitatingly stated that they would be compelled to hire new men, and at this season of the year every merchant's time was valuable and they could not lose it. The boys regret the result. They had hoped to vindicate themselves and friends from many unkind and untrue statements that have gone before the public from the Aberdeen drill, and also to show the people of Mississippi that they still deserve the title of "champions."

GREENVILLE, MISS., Nov. 5.—The beautiful church of St. James was crowded last night to its utmost capacity with a brilliant assemblage from Virginia, Kentucky, Arkansas, Tennessee, South Carolina and Mississippi to witness the marriage of Mr. Archer Harman of Louisville, to Miss Mary Livingston Lee, of Greenville. Fitzhugh Lee, of Virginia, and is one of the loveliest ornaments in the social circles of the South. Precisely at eight o'clock the young couple entered the church to the music of the wedding march preceded by the groomsmen, Messrs. A. M. Rutledge, J. G. Givens and T. G. Straut, of Kentucky, Walker Percy, John Lee and Frank Griffin, of Mississippi, and W. H. Harman, of Tennessee, walking two abreast, followed by the lady attendants, Misses Harsho, Lady Poy, Heloise Urquhart, Mary Griffin, Fannie Valliant, and Laura Griffin, of Mississippi, and Jessie Mitchell, of Kentucky. Dr. Cross, in the impressive service of the Episcopal church, pronounced them husband and wife.

Immediately afterwards the party and several hundred guests assembled at the house of Gen. S. W. Ferguson, brother-in-law of the bride, where a splendid reception was tendered them and congratulations received.

The bridal presents were numerous and costly, amply evidencing the esteem in which the happy couple are held by a host of relatives and friends. Mr. and Mrs. Harman left to-day for a trip to the eastern cities, and will return to Louisville to reside, next month.

There is danger of course, but McCullough is gaining strength so rapidly that he may fight it off.

A Lively Scene in a Court-Room.

BLOOMINGTON, ILL., Nov. 7.—An exciting scene occurred in the circuit court here yesterday during the trial of the divorce case in which John Mully, of Lexington, this county, is complainant, his wife defendant. In his bill Mully alleged infidelity on part of his wife, and when he sought to sustain the charge by proof Mrs. Mully fainted and was carried out of court. During the excitement Miss Hand, a large woman, sister of the defendant, shouted "Mully you have murdered my sister, and I will kill you," and rushing at Mully seized him by the hair and dragged him across the court-room before she could be quieted. She was terribly wrought up and could have used Mully quite roughly had not the court officers interfered.

A Serious Charge Against Telegraph Officials.

NEW YORK, Nov. 6.—In an interview to-day in regard to the boycott which the Knights of Labor have instituted against the Mallory line of steamers at Galveston, Mr. Mallory said he had not the slightest intention of yielding, as the demands of strikers were wholly unreasonable and one concession would open the way to new demands and more concessions. The line was having its work at Galveston done all right by the colored laborers. The extent to which the Knights of Labor were exercising power at present, was indicated by the fact that they practically controlled the telegraph. All the dispatches between his town and the agent at Galveston being known to the strikers and some of the dispatches being delayed in transmission.

NEW YORK GOSSIP.

Ex-Judge Cardozo Not Dead as Reported.—Mohone Socially and Politically Ruined.—Lillian Russell's Wardrobe Attached.—Galveston Strike, Etc.

NEW YORK, Nov. 7.—Ex-Judge Cardozo continued unconscious all day yesterday, and at an early hour this morning the end was apparently near. It was reported yesterday afternoon he was dead, but the rumor was unfounded.

This morning's papers have the following special:

"WASHINGTON, Nov. 7.

"Reports from Virginia say Mahone is socially and politically ruined. He has serious thoughts of leaving Virginia. The feeling against him in the State is so great, he will be socially ostracized."

Box-office receipts, scenery and wardrobe of the Lillian Russell company were seized under two attachments at the Newark opera-house last night to satisfy claims of Emeline Richards, a member of the company for \$259. The constable serving the writ was resisted at the box-office and knocked the ticket seller down before securing the wardrobe.

A crowd gathered yesterday around the prostrate body of a man on the pavement in front of O'Donovan Rossa's office, in Chambers street. Rumors of another fray in the den of the dynamiter kept the interest alive a few minutes. The police officer who summoned help to take the sufferer to the Chambers street hospital brought the excitement to an end. The man was a run epileptic.

It is announced that the New York Tribune has advanced its rates of composition to 47 cents per thousand.

The Times says of the pool contract Trunk railroad agreement signed essentially that published yesterday. Commissioner Fink in making his official announcement of signing the contract stated the principal point in which it differed from the old pooling contract was in assumption of responsibility on part of the trunk lines for accounts of the Western connections. The question of rates was not taken up, and will be considered by the executive committee. No action was taken by the president concerning the position of the Baltimore & Ohio relative to passenger business in the new pool. This is also being left for future settlement. After the signatures of the presidents have been affixed to the new agreement it was sent to all immediate Western connections of trunk lines, and assurances were given that these roads would join in the agreement, which thus becomes a fixed basis for government of all roads concerned.

Henry R. Mallory, of the Mallory Steamship company, said yesterday, in regard to boycotting his line at Galveston: "It affects not only us, but all business men of Texas. The strike or whatever it may be called, extends its influence to all that portion of the State tributary to Galveston. The railroads are affected by it, and all mercantile interests besides. Why, trade is practically at a standstill. The strikers won't allow freight to be delivered at our dock, and they try to prevent everyone from having any dealings with us. However, I suppose we can stand it if the good people of Galveston can. We have a large quantity of freight on our dock there awaiting shipment, and that will furnish us with cargoes for some time to come. We are putting it aboard our steamers with molestation, and when it is all disposed of, I suppose we will have to await developments."

Blown to Atoms.

ATLANTA, Nov. 5.—Two colored men, Wm. Kinnebrew and Phil Johnson, well diggers, were blown to atoms yesterday by the explosion of blasting powder. The horribly mutilated head being all but severed. The other body was shot straight up in the air, and fell back into the well.

The St. Paul and Pacific Coal Docks Discovered to be on Fire.

ST. PAUL, MINN., Nov. 5.—A special from Duluth says the St. Paul and Pacific coal docks, situated on Conner's Point, about three miles from here, across the bay, covering an area of five acres, and at present carrying a stock of about 100,000 tons of coal was discovered on fire last night. At a late hour they were still burning, although the tugs and fire engines sent from this city have been throwing streams of water upon the fire several hours. The dock property was built of made land, consisting of slabs and saw-dust, and as the fire is underneath the plank, it is very difficult to get at. It is impossible to make an estimate of probable loss.

Railroad Collision.

CLEVELAND, O., Nov. 6.—A double-header freight train collided with a switch engine on the New York, Pennsylvania & Ohio railroad at Akron early this morning. Decision in the Election Mandamus Case Rendered.

CINCINNATI, Nov. 5.—The circuit court-room was crowded for nearly an hour this morning waiting the appearance of the judges to render their decision upon the election mandamus case. When court assembled there was the closest attention to every word uttered. Judge Cox read the decision. He said it was an application for a mandamus filed by Amzie McGill for himself and three other candidates for election as State senators, avowing that the canvassing board was proceeding to do its work illegally, and asking the court to compel it to count the returns according to law, and issue certificates to them instead of the Democratic candidates. To this the defendants had filed a motion to strike out the material averments of the petition as irrelevant and insufficient. To support the demand in petition in argument, this motion had been treated as a demurrer; and the defense claimed that the mandamus was not the proper remedy, because the canvassing boards duty was not ministerial but quasi judicial, and because the proper remedy was by contest before the senate. The court held otherwise; that this court could direct the canvassing board by mandamus, and that mandamus was the proper remedy. The distinction made by Judge Buckwalter was followed by this court by declaring that this is not a contest for office but for certificates, which cannot be given by the senate, and which has a value distinct from the office itself. The court then considered, in detail, the averments, which the defense asked to have stricken out and overruled. The motion in all the cases, except one, where the allegations were as to irregularities in counting the vote. In the progress of the decision the court stated that it had the right to direct the clerk to omit from his canvass the returns which did not comply with the mandatory provisions of the law. Among these were that the returns should be delivered to the clerk in the manner and within the time named in the law, and that the number of votes shall not exceed the number of names on the poll-book. The defense asked until to-morrow to enable them to decide what further steps they shall take. It is understood they will appeal to the supreme court.

The Police Refuse to Interfere.

CHICAGO, Nov. 5.—Robert H. Vickers, who served as clerk of the election in the seventh precinct of the first ward, has addressed a letter to the county clerk, stating that while the judges were counting the votes, Alderman Wm. P. Whelan, of the first ward, crowded into the polling place accompanied by two companions and that although requested to leave by Vickers, became boisterous and refused to do so. Whelan or one of his companions picked up a bundle of affidavits and although the fact was called to the attention of the police, the latter refused to interfere. Whelan and the two men soon afterwards left, and Vickers claims that one of them took the bundle of affidavits. There were 122 affidavits in all, many of them sworn to by Whelan certifying to the residence of voters. The precinct is in the business district of the city, where it is claimed many frauds have been perpetrated in the past. No arrests have been made.

Chinamen Attack a White Man.

SAN FRANCISCO, Nov. 5.—Information has been received here that M. L. White foreman of McPherson ranch, three miles east of Orange, Los Angeles county, was attacked by about sixty Chinamen, in a vineyard while picking grapes Tuesday. White knocked several of them down and defended himself until the white men working near came to his rescue with shovels. All the Chinamen then fled to their camp, when they fortified and armed themselves with pistols. The boss Chinaman called on McPherson Brothers and asked them to discharge the white men, which they refused to do. Several of the Chinamen were discharged and the rest went to work. The affair has created intense excitement among the white people in that section.

A Falling Wall.

MEMPHIS, Nov. 5.—At an early hour this morning, one hundred feet of the retaining wall on the west side of the custom house ground fell over on the railway. The tracks, immediately below the wall was not sufficiently thick to withstand the pressure of the heavy rains of yesterday and last night, together with the freshly filled earth in behind. The wall was only recently completed and did not have sufficient time to become banked. The damage is estimated at \$3,500.

Sumner. A number of detachments were still out after others. The special says that Oklahoma was found to be full of trespassers but that they will all be brought into Reno, as Col. Sumner is determined to make a clean sweep under his orders. The prisoners already in will be held until the others are captured.

Some Remarkable Discrepancies in the Ohio Senatorial Contest.

CINCINNATI, Nov. 7.—The inspection of the returns in the Hamilton county senatorial case, before the circuit court, disclosed some remarkable discrepancies during the examination and cross-examination of County Clerk Dalton this afternoon, which in all probability will result in the election of the entire Republican ticket. The case is yet in a complicated condition, but the indications after to-day's proceedings point to changes in the official count which will make the county Republican instead of Democratic. At the session of the court to-day the testimony was given also together by County Clerk Dalton, and referred to discrepancies credited to senatorial candidates and the total number of names on the poll books. Thus in some precincts the total vote on the books as returned by Dalton would exceed by a score or more of the total number of voters registered. The count has not yet decided whether to throw out some of the entire precincts or only the excessive vote pro rata between each candidate. Assuming the excessive vote to be taken from the Democratic candidates the result of to-day's examination will be about as follows: In ten disputed precincts the Republicans gain 150 votes in precinct A of the Fourth ward, the Democrats lose 342 votes and if the whole precinct is thrown out 926. The total Republican vote in this precinct was 48. These changes alone would suffice to elect the Republican senators, but to-day testimony was also taken in regard to precinct F of the Ninth ward, where the returns were sent in on a Duckworth club sheet and in a very loose manner. According to a decision of the court a few days ago, this entire precinct, which is Democratic, will be thrown out on to-day's testimony, as the court, in this decision, announces that in case the allegations set forth by the Republicans as to the irregularities in this precinct were proven, the vote would be thrown out. To-day's testimony, it is thought, will result in this action, although it has not yet been formally decided. Precinct E, of the eighteenth ward, will be similarly treated, as Dalton's testimony substantially supports the charges of the Republicans, that the counting was not commenced until several nights after the election, and the returns were handed into Dalton in an unsealed envelope, while he was making the official count. This precinct is also Democratic, thus it will be seen that changes sufficient to wipe out the Democratic majority have already been discovered, and it now remains for the investigations to proceed still further. In case the court decides the case in favor of the Republicans, the Republican candidates on the entire county ticket will contest, as all but two or three were credited by Dalton with as many votes as were the senators. The investigation is being conducted with caution, and may not end for a week.

Everything in Readiness for the Opening of the Exposition.

No Hopes for Reil.

ST. PAUL, MINN., Nov. 7.—A Winnipeg special says: "A sensation has been caused here by the discovery that two members of a medical commission, appointed by the government to inquire as to Reil's alleged insanity, passed through here Thursday, en route to Regina, to hold an investigation. The government has been acting with the greatest secrecy in the matter, but the fact has leaked out. The commission consists of Dr. Jukes, surgeon to the northwest mounted police, and an Ontario and a Quebec physician. The Ontario physician is an Englishman, and the Quebec physician a Frenchman. Dr. Jukes, the third man, is an Englishman, and gave expert testimony during Reil's trial, holding that he was perfectly sane. It is generally believed the government made the appointment merely as a blind, and to appease a certain French faction. The commission began its labors to-day, and it is thought sent its report to the government by telegraph, so that if its report is that the prisoner was responsible for his deeds, the execution may take place next Tuesday as agreed upon. It is stated here, upon capital authority, that the government, knowing that the commission would report adversely to the prisoner, has sent up instructions to the authorities at Regina to hang Reil on the 10th, and that the execution papers went through on the same train as the commission."

The gentleman informed the board that he had asked for a transcript to be made to institute suit for mandamus to be issued, but Mrs. Blake had heard that a majority of the board were in favor of the issuing of said warrants. Lewis said he had been in favor of the road all the time, but he had governed his action by the wishes of the people in opposing it. Mr. Pittman said that all the fuss and opposition was made by about a half a dozen people. Mr. Martin said that a suit would cost the county at least \$1,000. Mr. Jones said that he was not willing to take any action during the absence of Capt. Worrell, who was absent, owing to the serious illness of his little daughter. The matter was deferred.

Honors Evenly Divided.

DODGE CITY, KS., Nov. 7.—The glove contest at the Fair grounds at this place this evening between John P. Clow, of Colorado, and Ed Smith, of England, in a fight to a finish with two ounce gloves, revised Queensbury rules for \$300, winner to take the entire gate receipts was won by Clow in the tenth round on a foul. Clow being knocked down and instead of Smith retiring to his corner as is provided by the rules stood over Clow as he attempted to regain his feet, inflicting the only real punishment that either received throughout the fight. A foul was immediately claimed by one of Clow's seconds, and it was allowed by the referee. The fight throughout which was closely contested showed much science and the honors were evenly divided between them up to the time the foul was made and allowed.

Rumors Sent Out from Pittsburgh Contradicted.

WHEELING, W. VA., Nov. 7.—The Wheeling nail manufacturers deny with much emphasis persistent rumors sent out from Pittsburgh that there is a possibility of a break in the ranks of the Western Nail Association. They say Pittsburgh manufacturers will continue to fight to the bitter end, and that all talk of a break or even of a compromise, is nonsense. The efforts of the business here is to bring about a meeting of representatives of manufacturers and nailers with a view of making mutual concessions and have met with no encouragement from mill owners.

Reports from Jacksonville, Duquoin, and Pittsfield, state much damage was done to property, although no further loss of life has yet been ascertained.
